(1) Includes the most recent quarterly or semi-annual distribution paid on December 31, 2009.

(2) The Fund estimates that it has distributed more than its income and net realized capital gains; therefore, a portion of your distribution may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with "yield" or "income."

(3) Based on Net Asset Value ("NAV") as of November 30, 2009.

(4) Total Returns are through November 30, 2009 and for Funds in operation less than five years, the return included in the 5 Year Average Annual Total Return on NAV column is from the Fund's inception date.

You should not draw any conclusions about the Fund's investment performance from the amount of this distribution.

The amounts and sources of distributions reported in this Notice are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes. You should not use this letter as a substitute for your Form 1099-DIV.
