Overall Morningstar Rating™

Among 297 funds in the Foreign Large Value category. This fund was rated 3 stars/297 funds (3 years), 4 stars/249 funds (5 years), 5 stars/162 funds (10 years) based on risk adjusted returns.

Performance data quoted represents past performance. Past performance is not a guarantee of future results and current performance may be higher or lower than performance quoted. Investment returns and principal value will fluctuate and shares when sold or redeemed, may be worth more or less than their original cost. You can obtain performance information which is current through the most recent month-end by visiting www.ftportfolios.com.

# Expenses are capped contractually at 0.60% per year, at least until January 31, 2020.

10-Year Standard Deviation (%)

*Expenses are capped contractually at 0.60% per year, at least until January 31, 2020.

30-Day SEC yield is calculated by dividing the net investment income per share earned during the most recent 30-day period by the maximum offering price per share on the last day of the period and includes the effects of fee waivers and expense reimbursements.

The unsubsidized 30-Day SEC yield is calculated the same as the 30-Day SEC yield, however it excludes contractual fee waivers and expense reimbursements.

Index yield represents the weighted average trailing 12-month dividend of the constituents of the Dow Jones Global Select Dividend Index™.

NAV returns are based on the fund’s net asset value which represents the fund’s net assets (assets less liabilities) divided by the fund’s outstanding shares. After Tax Held returns represent return after taxes on distributions. Assumes shares have not been sold. After Tax Sold returns represent the return after taxes on distributions and the sale of fund shares. Returns do not represent the returns you would receive if you traded shares at other times. Market Price returns are based on the midpoint of the bid/ask spread on the stock exchange on which shares of the fund are listed for trading as of the time that the fund’s NAV is calculated. Returns are average annualized total returns, except those for periods of less than one year, which are cumulative. The fund’s performance reflects fee waivers and expense reimbursements, absent which performance would have been lower. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on the investor’s tax situation and may differ from those shown. The after-tax returns shown are not relevant to investors who hold their fund shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts.

**Performance information for the Dow Jones Global Select Dividend Index™ is for illustrative purposes only and does not represent actual fund performance. Indexes do not charge management fees or brokerage expenses, and no such fees or expenses were deducted from the performance shown. Indexes are unmanaged and an investor cannot invest directly in an index.
The fund’s shares will change in value, and you could lose money by investing in the fund. One Risk Considerations

The fund lists and principally trades its shares on the NYSE Arca, Inc. You should consider the fund’s investment objectives, risks, and charges and expenses carefully before investing. Contact First Trust Portfolios L.P. at 1-800-621-1675 or visit www.ftportfolios.com to obtain a prospectus or summary prospectus which contains this and other information about the fund. The prospectus or summary prospectus should be read carefully before investing.

ETF Characteristics

The fund lists and principally trades its shares on the NYSE Arca, Inc. The fund’s return may not match the return of the Dow Jones Global Select Dividend Index™. Securities held by the fund will generally not be bought or sold in response to market fluctuations. Investors buying or selling fund shares on the secondary market may incur customary brokerage commissions. Market prices may differ to some degree from the net asset value of the shares. Investors who sell fund shares may receive less than the share’s net asset value. Shares may be sold throughout the day on the exchange through any brokerage account. However, unlike mutual funds, shares may only be redeemed directly from the fund by authorized participants, in very large creation/redemption units. If the fund’s authorized participants are unable to proceed with creation/redemption orders and no other authorized participant is able to step forward to create or redeem, fund shares may trade at a discount to the fund’s net asset value and possibly face delisting. Shares may be sold throughout the day on the exchange through any brokerage account. Investors who sell fund shares may receive less than the share’s net asset value. Investors buying or selling fund shares on the secondary market may incur customary brokerage commissions. Market prices may differ to some degree from the net asset value of the shares. Investors who sell fund shares may receive less than the share’s net asset value. Shares may be sold throughout the day on the exchange through any brokerage account. However, unlike mutual funds, shares may only be redeemed directly from the fund by authorized participants, participants are unable to proceed with creation/redemption orders and no other authorized participant is able to step forward to create or redeem, fund shares may trade at a discount to the fund’s net asset value and possibly face delisting.

Risk Considerations

The fund’s shares will change in value, and you could lose money by investing in the fund. One of the principal risks of investing in the fund is market risk. Market risk is the risk that a particular stock owned by the fund, fund shares or stocks in general may fall in value. There can be no assurance that the fund’s investment objective will be achieved. The fund may invest in securities issued by companies concentrated in a particular sector or country which involves additional risks including limited diversification. An investment in a fund containing securities of non-U.S. issuers is subject to additional risks, including currency fluctuations, political risks, withholding, the lack of adequate financial information, and exchange control restrictions impacting non-U.S. issuers. The fund may invest in depositary receipts which may be less than the underlying shares in their primary trading market.

The Dow Jones Global Select Dividend Index™ is a product of S&P Dow Jones Indices LLC or its affiliates (“SPDJI”) and has been licensed for use by First Trust Advisors L.P. Standard & Poor’s and S&P® are registered trademarks of Standard & Poor’s Financial Services LLC (“S&P®”); Dow Jones® is a registered trademark of Dow Jones Trademark Holdings LLC (“Dow Jones®”); and these trademarks have been licensed for use by SPDJI and sublicensed for certain purposes by First Trust Advisors L.P. The Morningstar Rating™ for funds, or “star rating”, is calculated for managed accounts (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product’s monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Risk-Adjusted Return measure is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of 23 developed markets around the world. The Dow Jones World Developed Markets Index™ represents 23 countries and covers approximately 95% of the float-adjusted market capitalization of Europe as a region, and all other markets at the country level.

Changes in currency exchange rates and the relative value of non-US currencies may affect the value of a fund’s investments and the value of a fund’s shares.

There is no guarantee that any issuer will declare dividends in the future, or that, if declared, they will remain at current levels or increase over time.

First Trust Advisors L.P. is the adviser to the fund. First Trust Advisors L.P. is an affiliate of First Trust Portfolios L.P., the fund’s distributor.

Definitions

Standard Deviation is a measure of price variability (risk). Alpha is an indication of how much an investment outperforms or underperforms on a risk-adjusted basis relative to its benchmark. Beta is a measure of price variability relative to the market. Sharpe Ratio is a measure of excess reward per unit of volatility. Correlation is a measure of the similarity of performance. The MSCI World Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of 23 developed markets around the world. The Dow Jones World Developed Markets Index™ represents 23 countries and covers approximately 95% of the float-adjusted market capitalization of Europe as a region, and all other markets at the country level.
