Sabrient Systems, LLC (“Sabrient”) is an independent equity research firm that builds powerful investment strategies by using a fundamentals-based, quantitative approach. The strategies are used to create rankings and ratings on more than 7,000 stocks, indices, sectors, and ETFs. Their models are designed to identify those companies that are anticipated to outperform or underperform the market.

The Sabrient Baker’s Dozen Portfolio is a unit investment trust which invests in 13 top-ranked stocks that represent a cross-section of industries that Sabrient believes are positioned to perform well in the coming year. They are GARP stocks – stocks that they believe represent growth at a reasonable price – and they are meant to be held for the full 13-month term of the trust.

PORTFOLIO SELECTION PROCESS

Sabrient’s selection process is based on the following six concepts:

- **Select GARP Stocks**: Sabrient uses the forward earnings outlook of a consensus of Wall Street analysts and adjusts the projected growth using a proprietary algorithm.
- **Evaluate Analysts’ Behavior**: Evaluate the consensus of the analysts to determine how confident they are in the earnings estimate forecasts.
- **Estimate Long-Term Earnings Growth Rate**: Estimate the secular growth rate of earnings (3-5 years) and divide that by the forward price to earnings ratio, so that they have confidence that the stock will still be selling at a price well above its current value within approximately 12 months. This assumes that there are no negative developments in the meantime.
- **Cost of Absolute Growth**: Calculate the projected absolute growth of each of the next four quarters and determine the cost of absolute growth.
- **Earnings Quality Rank (“EQR”)**: Use EQR, Sabrient’s proprietary forensic accounting factor, to rank the conservatism of the company’s accounting. Eliminate companies that have overly aggressive accounting practices and penalize others with aggressive accounting practices.
- **Diversify by Sector and Industry**: Lastly, diversify by sector and industry, allowing no more than approximately 30% of the portfolio in any one sector and no more than approximately 16% of the portfolio in any one industry.

PORTFOLIO OBJECTIVE

This unit investment trust seeks above-average capital appreciation; however, there is no assurance the objective will be met.

You should consider the portfolio’s investment objective, risks, and charges and expenses carefully before investing. Contact your financial advisor or call First Trust Portfolios L.P. at the number listed below to request a prospectus, which contains this and other information about the portfolio. Read it carefully before you invest.

RISK CONSIDERATIONS

An investment in this unmanaged unit investment trust should be made with an understanding of the risks involved with owning common stocks, such as an economic recession and the possible deterioration of either the financial condition of the issuers of the equity securities or the general condition of the stock market.

An investment in foreign securities should be made with an understanding of the additional risks involved with foreign issuers, such as currency and interest rate fluctuations, nationalization or other adverse political or economic developments, lack of liquidity of certain foreign markets, withholding, the lack of adequate financial information, and exchange control restrictions impacting foreign issuers.

An investment in a portfolio containing small-cap and mid-cap companies is subject to additional risks, as the share prices of small-cap companies and certain mid-cap companies are often more volatile than those of larger companies due to several factors, including limited trading volumes, products, financial resources, management inexperience and less publicly available information.

As the use of Internet technology has become more prevalent in the course of business, the trust has become more susceptible to potential operational risks through breaches in cyber security.

Although this portfolio terminates in approximately 13 months, the strategy is long-term. Investors should consider their ability to pursue investing in successive portfolios, if available. There may be tax consequences unless units are purchased in an IRA or other qualified plan.

The value of the securities held by the trust may be subject to steep declines or increased volatility due to changes in performance or perception of the issuers.

SALES CHARGES (BASED ON A $10 PUBLIC OFFERING PRICE)

STANDARD ACCOUNTS

**Transaction Sales Charges:**
- Initial 0.00%
- Deferred 1.35%

**Creation & Development Fee:**
- 0.50%
- 1.85%

The deferred sales charge will be deducted in three monthly installments commencing 9/20/19.
When the public offering price is less than or equal to $10.00 per unit, there will be no initial sales charge. If the price exceeds $10.00 per unit, you will pay an initial sales charge.

FEE/WRAP ACCOUNTS

**Minimum Sales Charge:**
- 0.50%

The maximum sales charge for investors in fee accounts consists of the creation and development fee. Investors in fee accounts are not assessed any transactional sales charges. Standard accounts sales charges apply to units purchased as an ineligible asset.

The creation and development fee is a charge of $0.050 of each unit sold at the end of the initial offering period. If the price you pay exceeds $10.00 per unit, the creation and development fee will be less than 0.50%; if the price you pay is less than $10.00 per unit, the creation and development fee will exceed 0.50%.

In addition to the sales charges listed, UITs are subject to annual operating expenses and organization costs.

HOLDINGS STYLE ANALYSIS

- Large-Cap Value: 15.40%
- Mid-Cap Growth: 23.07%
- Mid-Cap Value: 23.08%
- Small-Cap Growth: 38.45%

HOLDINGS SECTOR ANALYSIS

- Consumer Discretionary: 7.69%
- Financials: 23.08%
- Health Care: 23.09%
- Industrials: 15.38%
- Information Technology: 7.69%
- Materials: 23.07%

HOLDINGS COMPOSITION

- U.S. Stocks: 69.22%
- Non-U.S. Stocks: 30.78%

The holdings characteristics of the portfolio are determined as of the initial date of deposit and may differ slightly from those indicated above due to the requirement that only whole shares be purchased for the portfolio and will likely vary thereafter due to market fluctuations in the underlying securities. For a complete description of these characteristics refer to the prospectus.
